REED MEDICAL education
GPCE IS COMING TO PERTH!

WHY ATTEND?
The General Practice Conference & Exhibition (GPCE) is Australia’s leading educational event for primary care and, now in its 23rd year, is recognised as one of the most important CPD events on the general practice calendar.

GPCE IS YOUR ONE-STOP-SHOP TO:
- Benefit from two days of quality face-to-face education delivered by local experts with all the latest updates and education specifically for primary care
- Earn CPD points and keep your knowledge sharp
- Discover the latest medical innovations, treatments and products from Western Australian suppliers
- Hear from and interact with industry leaders and peers
- Connect with colleagues and friends, old and new
- Relevant for the whole practice team
- Have a break from a busy work life and stimulate the mind

ALL ACROSS ONE WEEKEND!

UPSKILL ACROSS 13 THERAPEUTIC AREAS
The GPCE conference program is designed to cover the breadth and depth of primary care with a diverse range of Active Learning Modules, education sessions and practical workshops, focusing on the most topical areas from Asthma to Zika, including:

- Aged Care
- Business & Practice Management
- Chronic Disease
- Emergency Medicine
- ENT Medicine
- Lifestyle & Chronic Conditions
- Mental Health
- Musculoskeletal Health
- Pain Management
- Paediatric Health
- Preventative Health
- Respiratory Health
- Women's Health

WHY ATTEND?
The General Practice Conference & Exhibition (GPCE) is Australia’s leading educational event for primary care and, now in its 23rd year, is recognised as one of the most important CPD events on the general practice calendar.

WHO SHOULD ATTEND?
GPCE Perth is Western Australia’s leading educational event for primary care with a high quality CPD program that brings together the whole practice team. GPCE events are designed for:

GENERAL PRACTITIONERS | GP REGISTRARS | PRACTICE NURSES | PRACTICE MANAGERS | ALLIED HEALTH PROFESSIONALS

WITH THANKS TO OUR ADVISORY COMMITTEE
GPCE is designed and developed in consultation with our advisory committee who work tirelessly to ensure content is produced and delivered to the highest standard and relevant to the current art of general practice and primary healthcare. Our advisory committee includes:

- **DR JOE KOSTERICH**
  MBBS (WA) | Adjunct Professor (teaching) – UWA

- **DR SIMON COWAP**
  MBBS (Hons), FRACGP

- **DR JOHN CRIMMINS**
  MBBS, FRACGP, MFM

- **DR STEPHEN YELLAND**
  MBBS (QLD 1979) | Director – Wound Busters Pty Ltd

- **MS HOLLY ROBINSON**
  Practice Manager of the Year 2015, Registered Nurse & Midwife
5 REASONS WHY YOU CAN'T MISS GPCE PERTH

To mark the start of the new CPD year and triennium, we’ve got a number of exciting changes, updates and additions to GPCE in 2017. Attend GPCE Perth and walk away with new skills, knowledge, inspiration and relationships to bring straight back to your practice.

1. EARN CPD POINTS & UPSKILL ACROSS 13 THERAPEUTIC AREAS

Benefit from a diverse range of Active Learning Modules (ALMs), education sessions and practical workshops, focusing on the most topical presentations in general practice over 13 therapeutic areas, from Asthma to Zika.

2. MEET & CONNECT WITH PEERS FROM ACROSS WA & AUSTRALIA

GPCE Perth is a meeting point for GPs, Practice Nurses and primary healthcare professionals from across Western Australia to catch up, share experiences, make connections and network. Take time to wind down over a drink and canapés at the MedTalks or official social networking function on Saturday 22 July.

3. BE INSPIRED AT THE NEW ‘MEDTALKS’ & KEYNOTE PRESENTATION

Controversial, topical, challenging, inspiring… Brand new for 2017 join us for the GPCE ‘MedTalks’ on Saturday 22 July from 5:30pm and the Keynote presentation, back by popular demand, running from 12pm-1pm on Saturday 22 July. Free and open to all primary healthcare professionals.

4. FREE CPR TRAINING FOR DELEGATES

Take advantage of our free* CPR training sessions taking place multiple times across the weekend. These hands-on sessions are based on Australian Resuscitation Council guidelines and are delivered by highly trained paramedics.

5. SEE THE LATEST PRODUCTS, TREATMENTS & INNOVATIONS

Alongside the GPCE conference, meet with Western Australian suppliers, explore new products and services for your practice and network with fellow GPs and other health professionals.

Register online for your FREE exhibition day pass at gpce.com.au/register

FIND OUT MORE AT GPCE.COM.AU

*Free for all conference delegates. $100pp for Exhibition pass holders.
GPCE Perth offers an innovative and inspiring conference program, delivering an extensive choice of high quality, engaging educational sessions exploring the latest advances and treatment options in primary care.

The conference program has been designed to support the art of general practice, with the whole team in mind; whether you are a GP, Nurse, Practice Manager, Registrar or Allied Health Professional there are educational sessions available for everyone. Follow the colour coding system and key to help you pick your sessions.

ACTIVE LEARNING MODULES/CATEGORY 1

The GPCE Perth 2017 conference program offers 3 Active Learning Modules (ALMs), providing the opportunity to focus your education on content frequently presented in everyday practice. For more information visit gpce.com.au/perthalms

IMPLEMENTING CHRONIC CARE INTO PRACTICE
This activity is aimed at GPs who work for or own a practice. With the ongoing care of a variety of chronic conditions such as COPD, type 2 diabetes, mental health and heart disease becoming a major part of our daily practice, we need to have systems in place to meet immediate and long term health needs of the patients affected. Being up to date with evidence and best practice is only one part of the knowledge and skills needed to tackle effective chronic care management within a general practice setting.

MASTERING THE ART OF HEART FAILURE MANAGEMENT
Significant gaps exist in the care of people with heart failure. Accurate assessment of severity and appropriate treatment of heart failure is critical to reducing unnecessary morbidity and mortality. This ALM will provide the latest evidence-based guidance on diagnosis and management of heart failure, with a focus on recent advances in pharmacological management.

MANAGEMENT OF PAEDIATRIC MEDICAL EMERGENCIES
This ALM is designed to provide general practitioners with the knowledge and skills to manage the most common life threatening events occurring in babies and small children. The ALM attempts to demystify and simplify the practice of paediatric resuscitation in serious presentations including compromised airways, infections, and the HS and Ts (Hypoglycaemia, Hypovolaemia, Hypoxia, Hydrogen ions (acidosis), Hypo and Hyperkalaemia and Hypothermia, Toxins, Tamponade - cardiac, Tension pneumothorax, Thrombosis, Thromboembolism and Trauma) for the collapsed child and infant.

EDUCATION SESSIONS & WORKSHOPS /CATEGORY 2

AGED CARE
ADVANCE CARE PLANNING IN GENERAL PRACTICE
SUN Session 4
Enhance your skills in incorporating advance care planning conversations into routine care. The older population in Australia is growing, with people living longer and dying expected deaths from chronic conditions. General practice has ongoing and trusted relationships with their patients and is well positioned to promote and initiate the ACP conversation.

BUSINESS & PRACTICE MANAGEMENT
A BETTER MBS FOR ALL AUSTRALIANS
SAT Session 2 Prof. Bruce Robinson
The Medicare Benefits Schedule Review Taskforce is an independent clinician-led review considering how more than 5,700 items on the MBS can be aligned with contemporary clinical evidence and practice, and improve health outcomes for patients. We will report on the impact to GPs during the Review and the progress of the General Practice and Primary Care Clinical Committee (GPPCCC).

CHRONIC DISEASE
GENERAL PRACTICE MANAGEMENT OF OVERACTIVE BLADDER
SUN Session 2
In these presentations the contemporary management of incontinence and an overactive bladder will be outlined. Treatment pathways for incontinence management will be discussed, along with strategies to assist GPs in discussing these potentially embarrassing issues with patients.
**Dermatology**

**Assessment and Management of Melanoma and Non-Melanoma Skin Cancers in General Practice**

**SUN Session 5**

This session is designed for GPs who on completion will be able to assess melanoma and non-melanoma skin cancers encountered in the general practice environment; understand the features contributing to the diagnosis of SCC, BCC, Merkel cell carcinoma (MCC) and melanoma and surgical management options; and define the role for sentinel lymph node biopsy and completion lymphadenectomy in the surgery for Melanoma and MCC.

**Emergency Medicine**

**CPR in the Medical Practice**

**SAT Sessions 2 & 4 • SUN Sessions 1 & 4**

Mr Royce Webb

This session will draw on the expertise of frontline paramedics and provide detailed hands-on instruction in Cardiopulmonary Resuscitation (CPR), in line with the Australian Resuscitation Council guidelines.

**ENT Medicine**

**What an Earful! Best Practice in Assessing and Removing Foreign Bodies and Wax from Patient’s Ears**

**SAT Session 1**

Ms Bec Bennett

Your patients’ hearing can be adversely impacted by the buildup of wax in the ear canal. There’s also the possibility of a patient presenting with a foreign body lodged in their ear. What’s the best way to deal with this? In this session, an experienced audiologist gives practical tips and demonstrates some of the latest techniques in safely managing this issue.

**Lifestyle & Chronic Conditions**

**Nutrition Myth Busting for Healthcare Professionals**

**SAT Session 1**

Mr Glenn Cardwell

Nutrition mythology abounds. The public are confused about gluten-free, whether they should drink animal or plant based milks, or avoid all sugar-containing foods. This session will give doctors and nurses practical responses and advice they can give to the concerned public.

**Mental Health**

**Signs, Symptoms and Management of Posttraumatic Stress Disorder (PTSD)**

**SAT Sessions 5 • SUN Sessions 1**

These sessions help bridge any gap between the latest Australian evidence and current clinical practice. Key steps for early identification of PTSD are discussed, as are veteran community sensitivities associated with a diagnosis. Acute and long term physical and psychological comorbidities are reviewed, providing context for the design and implementation of a team management plan with a clear whole person focus.

**Pharmacological Intervention in the Treatment of COPD**

**SUN Session 3**

Dr Simon Cowap

Primary care plays a critical role in the identification, diagnosis and management of Chronic Obstructive Pulmonary Disease. These workshops will review the Lung Foundation and Thoracic Society’s COPD-X guidelines, with a focus on pharmacological intervention, and assisting practitioners to navigate the recent influx of COPD medicines onto the market.

**Pain Management**

**What a Pain! Treating Your Patients for Chronic Non-Cancer Pain**

**SUN Session 3**

Dr John Crimmins

These sessions address the identification, diagnosis and management of chronic pain, emphasizing a multimodal approach including lifestyle and supplementary therapies in addition to the appropriate use of medication. A structured framework is presented for the use of opioids, covering choice of product (long vs short acting, strong vs weak), evaluation of results, titration and tapering schedules.

**Respiratory Health**

**How to Manage the Doctor Shopper**

**SAT Session 5**

Dr Wayne Herdy

Prescribers fear being deceived by patients who are feigning medical conditions in order to obtain S8 drugs. Often patients with suspicious stories do have legitimate needs that should, and can be met by the prescriber. This session offers some practical tips to navigate through the minefield of providing quality of care, whilst not falling victim to the illicit drug seeker.

**Session Spaces are Limited**

Register your place now at gpce.com.au/register
### Women's Health

**Menopause - Your Menu of Treatments for Pausing the Symptoms**

**SUN Session 2**

New menopause treatment options offer practitioners additional options in managing patients’ symptoms. These interactive sessions will keep you at the forefront of this key women’s health issue.

Please note that entry to the GPCe is strictly for healthcare professionals only.

**Earn Up to 10 CPD Points**

**ACCREDITED EDUCATION ACROSS 2 DAYS**

GPCE is an authorised provider of accredited education and activities under the RACGP QI&CPD program, the Australian College of Rural & Remote Medicine (ACRRM) and the Nursing and Midwifery Board of Australia.

**ACCREDITATION FOR GPS**

Accreditation points awarded will be dependent on the type of learning chosen and the accreditation provider:

<table>
<thead>
<tr>
<th></th>
<th>RACGP</th>
<th>ACRRM</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>ACTIVE LEARNING MODULE</strong></td>
<td>40 QI&amp;CPD points (Category 1)</td>
<td>30 PRPD</td>
</tr>
<tr>
<td><strong>INDIVIDUAL SESSION</strong></td>
<td>2 QI&amp;CPD points (Category 2)</td>
<td>2 PRPD points</td>
</tr>
<tr>
<td>CPR</td>
<td>5 QI/CPD points (Category 2)</td>
<td>10 BLS points</td>
</tr>
</tbody>
</table>

**Important information:** GPs participating in an Active Learning Module will need to complete the following paperwork to be eligible to receive CPD points:
- Pre-disposing activity – this must be completed prior to attending the GPCE
- Evaluation – to be completed within two weeks following the conference
- Reinforcing activity – to be completed within two weeks following the conference

All accreditation paperwork can be completed via the online or onsite Delegate Lounge. Find out more online at gpce.com.au/accreditation.

**ACCESS THE GPCE DELEGATE LOUNGE ONLINE OR ONSITE**

The Delegate Lounge is the online hub for all your accreditation needs. Delegates who are claiming for CPD points from their attendance at GPCE can submit all paperwork via the Delegate Lounge as well as gain access to:
- Speaker Notes
- Accreditation Paperwork
- Tracking of CPD points
- Certificate of Attendance

All delegates who have registered for the GPCE conference program have automatic access to the Delegate Lounge. You can log-in at any time before or after the conference or visit the Delegate Lounge onsite at the GPCE to access the Delegate Lounge and complete all required paperwork.

**ACCREDITATION FOR NURSES**

The Nursing and Midwifery Board of Australia requires nurses and midwives to accrue 20 hours of CPD each year. The GPCE conference program has been designed to suit the needs of practice nurses in meeting their continuing professional development requirements.

Participating in the GPCE conference program provides the opportunity for nurses to earn up to 10 CPD points across three days.

All accreditation paperwork can be completed via the online or onsite Delegate Lounge. Find out more online at gpce.com.au/accreditation.
**HOW TO REGISTER FOR GPCE PERTH**

Flexible registration options are available allowing you to attend GPCE as a conference delegate (providing full access to the conference and exhibition) or an Exhibition Only visitor. 1 or 2 day passes are available. Entry to the exhibition only is FREE for healthcare professionals.

**CONFERENCE REGISTRATION RATES INCLUDE:**

- Entry to conference sessions, keynote presentation and MedTalks
- Complimentary CPR training
- Entry to the social networking drinks reception
- Morning tea, lunch and afternoon tea each day of the conference
- Conference satchel
- Conference materials including conference guide & online speaker notes

**HAVE YOU ATTENDED THE GPCE AT LEAST TWICE IN THE LAST THREE YEARS?**

You may be eligible for Platinum Club membership and access to a range of benefits including 30% discount on conference rates!

To find out if you qualify for Platinum Club membership in 2017, please contact Ozaccom+ on 1800 814 611 or email gpce@ozaccom.com.au.
