80%
higher
absorption
THAN STANDARD VITAMIN C¹

High dose liposomal vitamin C to help
support your **immune health**

liposachets.com.au

Why take VITAMIN C LIPO-SACHETS®?

- ✓ Next generation liposomal vitamin C using LIPO-SHELL® technology
- ✓ Proven up to 80% higher absorption than standard vitamin C¹
- ✓ Supports immune system health
- ✓ NO added sugars²
- ✓ NO alcohol, gluten & GMO
- ✓ NO artificial flavours, colours or thickeners
- ✓ Suitable for vegans
- ✓ Our single dose foil sachets are convenient, easy to use and protect the vitamin C from oxidation

How does LIPO-SHELL® technology work?

High quality liposomes act as stable carriers, encapsulating and protecting the vitamin from degradation by substances within the body's digestive system.

This allows for the efficient transport of the vitamins to the body's cells for **increased bioavailability and high absorption**.

For adults

ACTIVE INGREDIENTS:

Each 5g sachet contains Sodium Ascorbate **1000mg** equivalent to 889mg vitamin C.

DOSAGE: 1 sachet once daily. Do not exceed the recommended daily dose.

Most people become accustomed to the distinctive taste of liposomal vitamin C with regular use, but for those who find it a little hard to swallow, we suggest mixing it in or chasing it with a little cool water, juice or pre-made smoothie.

1000mg
for adults
available in
Original flavour

ALWAYS READ THE LABEL AND FOLLOW THE DIRECTIONS FOR USE

¹ Based on a study comparing 10g Vitamin C Lipo-Sachets to 10g standard vitamin C. Ref: M. Lukawski et al. (2019), Journal of Liposome Research, ISSN:0898-2104. ² Contains naturally occurring sugars.
